Clinical Supervision Activities for Increasing Competence and Self-Awareness

Editor: Roy A. Bean
Category: Psychology > Psychotherapy > General

ABOUT THE BOOK

Cultivate self-awareness, empathy, and clinical competence in the mental health professionals you supervise. Providing tested guidance for clinical supervisors of mental health professionals, editors Roy A. Bean, Sean D. Davis, and Maureen P. Davey draw from their own backgrounds in training, private practice, and academe, as well as from an international panel of experts representing various mental health fields to provide activities and best practices that allow therapists to better serve an increasingly diverse set of clients and issues. While clinical skills are easily observed, the more subtle areas of self-awareness, or exploring unexamined judgments are more difficult to spot and to prov... [Read more »](#)

Collaborative Learning Techniques

A Handbook for College Faculty
By: Elizabeth F. Barkley
Category: Education > Teaching Methods & Materials > General

ABOUT THE BOOK

A guide to thirty-five creative assignments for pairs and groups. Collaborative Learning Techniques is the bestseller that college and university faculty around the world have used to help them make the most of small group learning. A mountain of evidence shows that students who learn in small groups together exhibit higher academic achievement, motivation, and satisfaction than those who don't. Collaborative learning puts into practice the major conclusion from learning theory: that students must be actively engaged in building their own minds. In this book, the authors synthesize the relevant research and theory to support thirty-five collaborative learning activities for use in both traditio... [Read more »](#)

Smart But Stuck

Emotions in Teens and Adults with ADHD

By: Thomas E. Brown

Category: Psychology > General

ABOUT THE BOOK

Compelling stories that present a new view of ADHD. Smart but Stuck offers 15 true and compelling stories about intelligent, capable teens and adults who have gotten "stuck" at school, work, and/or in social relationships because of their ADHD. Dr. Brown highlights the often unrecognized role that emotions play in this complex disorder. He explains why even very bright people with ADHD get stuck because they can focus well on some tasks that interest them, but often can't focus adequately on other important tasks and relationships. The first book to explain and illustrate the crucial role of emotions in the daily functioning of those living with ADHD. Brown, Associate Director of the Yale Clinic ... [Read more »](#)

On the Rocketship

How Top Charter Schools Are Pushing the Envelope

By: Richard Whitmire

Category: Education > Philosophy & Social Aspects

ABOUT THE BOOK

The face of American education is evolving—and the roadmap is clear. On the Rocketship: How Top Charter Schools are Pushing the Envelope examines the rise and expansion of leading charter school network Rocketship, revealing the "secret sauce" that makes a successful program. A strong narrative with a timely message, the book explores how Rocketship started and the difficulties encountered as it expands. Designing schools for children who have been failed by traditional schools is extremely challenging work. Setbacks are inevitable. Later in the book the narrative shifts to the national picture, exploring how high performing charter schools are changing the education landscape in cities ... [Read more »](#)

Multiple Pathways to the Student Brain

Energizing and Enhancing Instruction

By: Janet Zadina

Category: Education > General

ABOUT THE BOOK

From an award-winning neuroscience researcher with twenty years of teaching experience, *Multiple Pathways to the Student Brain* uses educator-friendly language to explain how the brain learns. Steering clear of “neuro-myths,” Dr. Janet Zadina discusses multiple brain pathways for learning and provides practical advice for creating a brain-compatible classroom. While there are an abundance of books and workshops that aim to integrate education and brain science, educators are seldom given concrete, actionable advice that makes a difference in the classroom. *Multiple Pathways to the Student Brain* bridges that divide by providing examples of strategies for day-to-day instr...

Using Evidence of Student Learning to Improve Higher Education

By: George D. Kuh

Category: Education > Higher

ABOUT THE BOOK

American higher education needs a major reframing of student learning outcomes assessment. Dynamic changes are underway in American higher education. New providers, emerging technologies, cost concerns, student debt, and nagging doubts about quality all call out the need for institutions to show evidence of student learning. From scholars at the National Institute for Learning Outcomes Assessment (NILOA), Using Assessment Evidence to Improve Higher Education presents a reframed conception and approach to student learning outcomes assessment. The authors explain why it is counterproductive to view collecting and using evidence of student accomplishment as primarily a compliance activity. Today's circumstances demand a fresh and more strategic approach to the processes by which evidence about student learning is obtained and used to inform efforts to improve teaching, learning, and decision-making. Whether you're in the classroom, an administrative office, or on an assessment committee, dat... [Read more >](#)

Emotionally Intelligent Leadership for Students

Inventory

By: Marcy Levy Shankman

Category: Education > Students & Student Life

ABOUT THE BOOK

The only instrument that measures behaviors associated with emotionally intelligent leadership. The Emotionally Intelligent Leadership for Students: Inventory is an evidence-based assessment of the capacities of emotionally intelligent leadership (EIL). Research that spans the globe has demonstrated that there is a relationship between emotional intelligence and leadership. For the second edition, the authors have conducted original studies, yielding a substantial revision that better reflects the world of emotionally intelligent leadership and will be transformative for students of all backgrounds. First, this 57-item assessment measures how often students engage in behaviors that align with emotionally intelligent leadership. Then, the reflection portion walks students through the process of analyzing and understanding their results, giving them concrete suggestions for how to explore and improve their emotionally intelligent leadership. The inventory reflects 19 EIL capacities supported... [Read more »](#)
