NowPresso Gold Automatic Travel Espresso Machine

The NowPresso Gold is a cordless portable espresso machine that can boil water, be powered by a removable lithium battery, operate from one button and automatically pump as well as pour your coffee straight into the detachable drinking cup.

At the simple push of a button, you can now enjoy a perfectly extracted espresso whenever, and wherever you are in the world.

Your endless search for the perfect cup of coffee when on the go is officially over. The all-encompassing disappointment from a bad cup of coffee is now a thing of the past. The guarantee to fulfill your coffee fix is here without compromising on quality, wherever your adventures takes you. The Nowpresso uses our C4, Double Tap and HALO style capsules.

The Nowpresso Gold is the Gold Award winner at the Electronic Industries Award (EIA) Electronic Product of The Year 2019 Hong Kong Electronic Fair.

Features:

- Digital Panel Display, OLED digital display to indicate battery level and coffee making status.
- With your battery at full charge you can brew 3 espressos from cold water or 200 espresso's using boiled water from your Operators thermal canteen..
